🌐 [Portfolio](#) | 📍 Bhubaneswar, India

Education

Kalinga Institute Of Industrial Technology Deemed to be University - Bhubaneswar 2023 – 2027
B.Tech in Computer Science and Engineering | CGPA: 8.31/10 | No Active Backlogs
Vision International School, CISCE Board, Uttarpara Kotrung, West Bengal
Class XII: 84.4% 2023
Class X: 89.8% 2021

Technical & Soft Skills

Languages & Frameworks: Python, Java, FastAPI, SQL
Databases & ORM: SQLite, SQLAlchemy
Testing & CI/CD: pytest, GitHub Actions
Observability & API Design: Prometheus, Grafana, REST API Design, Rate Limiting
Soft Skills: Root-Cause Analysis, Technical Documentation, Agile Collaboration, Stakeholder Communication
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Work Experience

Accenture Solutions Pvt. Ltd. – Associate Software Engineering Intern, Bengaluru May – Jul 2026
Project: SpecAMS (Specification-Driven Development in Application Management Services)

- Established technical specifications as the single source of truth for requirements, code, and fixes, so any change could be traced back to why it happened. Piloted this approach across 2 delivery tracks
- Designed the escalation path from first-line support to specialist L2/L3 teams, defining 13 evaluation criteria and 15 process rules across 4 teams to decide when a ticket should move up
- Built a tool that uses TF-IDF-based text similarity to compare a new support ticket against past resolved ones, surfacing the closest matching fix with a confidence score to speed up triage
- Engineered an LLM-based support chatbot with **FastAPI** that pulls answers from a knowledge base of resolved tickets, cutting down on manual ticket searches

Technical Projects

APIWatch [GitHub](#)
FastAPI, SQLAlchemy, SQLite, pytest, GitHub Actions, Prometheus, Grafana, slowapi

- Built a REST API with 5 endpoints using **FastAPI** and **SQLAlchemy**, with rate limiting protecting write endpoints from excessive requests
- Wrote 21 automated tests covering success and failure paths for every endpoint, plus pagination, CORS, rate-limiting, and error-handling checks, reaching **97.35% line coverage**, and set up **GitHub Actions** to run them automatically on every change
- Added **Prometheus** and **Grafana** monitoring – benchmarked on a single instance across 200 sequential requests, response time stayed under 10 milliseconds for 95% of requests

AI Resume Screening Assistant [GitHub](#)
FastAPI, React, PyTorch, TF-IDF, spaCy, scikit-learn

- Trained a 2-layer neural network on TF-IDF text features extracted from 2,362 resumes spanning 21 job categories, serving predictions through a **FastAPI** backend and **React** frontend
- Evaluated on a held-out set of 472 resumes, reaching 67.4% accuracy and 66.7% macro F1 across 21 categories
- Built the preprocessing pipeline using **spaCy** for text cleaning and **TF-IDF** for feature extraction ahead of classification

Certifications, Achievements & Activities

- Solved 300+ problems on LeetCode (60+ Medium, 20+ Hard)
- Secured 3 Gold (2014–2016) and 2 Silver (2017–2018) medals in SOF International Mathematics Olympiad (IMO)
- Finished in the top 16 of 100+ teams at the XIM Open basketball tournament
- Served as IEEE CTSoc & CIS Technical Volunteer at the 23rd OCIT International Conference, KIIT

Accenture Internship Certificate and Badge
SAP Certified – SAP Fiori Application Developer
Physics Wallah – Decode DSA with Java
