Education

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar July 2023 – July 2027
B.Tech in Computer Science and Engineering | CGPA: 8.31 / 10 | No Active Backlogs
Vision International School, CISCE Board Class XII: 84.4% (2023)
Uttarpara Kotrung, West Bengal Class X: 89.8% (2021)

Technical & Soft Skills

Languages: Python, Java, SQL
AI/ML & Generative AI: Scikit-learn, PyTorch, RAG, LLMs (API Integration), Prompt Engineering
Backend & APIs: FastAPI, React, REST APIs, JWT Authentication
Databases: PostgreSQL, MySQL, SQL Querying, Database Design
Core CS: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks, Software Engineering
Soft Skills: Communication, Cross-functional Collaboration, Root-Cause Analysis, Analytical Thinking

Work Experience

Accenture Solutions Private Limited – ASE Intern May 2026 – July 2026
Application Management Services (AMS) – Specification Driven Development (SpecAMS)

- Diagnosed 3 recurring root causes in AMS workflows – requirement ambiguity, documentation inconsistencies, and traceability gaps – through systematic ticket analysis across enterprise delivery tracks.
- Authored technical specification documents adopting Specification Driven Development (SDD) methodology; piloted the framework across 2 enterprise delivery tracks to improve software lifecycle reliability.
- Modeled an L1 to L2/L3 escalation flow in a live prototype; defined **13 evaluation criteria and 15 process rules** governing handoffs across 4 teams (L1, Operations, Management, Developer).
- Built a structured knowledge base of technical notes from resolved tickets to speed up future issue resolution.
- Collaborated in daily Agile ceremonies to design, architect, and ship the modular, spec-driven prototype with a cross-functional team.

Technical Projects

AgentCorp [GitHub](#)
Python, FastAPI, PostgreSQL, LLM API Integration, RAG, JWT

- Built a multi-tenant AI agent platform on FastAPI and PostgreSQL, integrating an LLM API to power conversational agents with persistent memory across sessions.
- Implemented a RAG-based knowledge retrieval layer with JWT authentication, allowing agents to ground responses in stored organisational context.
- Designed the backend with modular, service-separated architecture keeping agent logic, memory, and data-access layers independently testable.

Fresh ScanX [GitHub](#) | [Live](#)
Python, PyTorch, CNN, FastAPI, Vercel

- Trained a CNN classifier on 16,000+ images across 20 classes (10 fruits, 10 vegetables), achieving **92% accuracy** – a 14% lift over the untuned baseline.
- Fine-tuned a pre-trained CNN architecture in PyTorch to classify images as fresh or rotten; deployed as a REST API on Vercel for real-time predictions on user-uploaded images.

Certifications, Achievements & Activities

Achievements

- Top 5 Intern at Accenture:** Selected to present before a visiting Japanese delegation at a conference on **Agentic AI**; awarded a **Letter of Appreciation**.
- Competitive Programming (LeetCode):** Solved **300+** DSA and SQL problems (60+ medium, 20+ hard) – arrays, strings, trees, graphs, recursion, dynamic programming.
- Basketball – XIM Open Tournament:** Led a self-assembled team; finished **top 16 among 200+** registered teams.
- SOF IMO:** 3 Gold Medals (2014–2016) & 2 Silver Medals (2017–2018) across five national cycles.
- IEEE CTSoc & CIS Technical Volunteer:** 23rd OCIT International Conference, KIIT.

IBM Data Science Professional Certificate | IBM Machine Learning Professional Certificate | Deloitte – Data Analytics Job Simulation (Forage) | SAP Fiori Application Developer Certification | Cisco Networking Academy – Cybersecurity Virtual Internship
